

CEDI Recertification by Sept 1, 2011

Please complete your CEDI Trading partner Recertification form – all trading partners must complete the recertification form to keep their ID active. The recertification form is located under EDI Enrollment.

The CEDI (the Common Electronic Data Interchange) provides a single electronic front end solution for all DME MAC suppliers. CEDI works closely with DME MAC software vendors, billing services, clearinghouses, and trading partners (electronic submitters) on all electronic front end needs. All DME MAC electronic claims (ANSI and NCPDP) and 275 transactions are collected by CEDI. CEDI also returns all DME MAC electronic front end reports, electronic remittance advices and the 277 response transaction.

CEDI does not handle Claims Status Inquire (CSI) or Electronic Funds Transfer (EFT). DME MAC suppliers must contact appropriate DME MAC Jurisdiction for CSI and EFT information.

This information was found on www.ngscedi.com.
